

Psorinum — in Kent's Repertory

Presented below are rubrics pertaining to skin of *Psorinum*, a drug of choice often.

CRACKS: *Psor* (2)

— winter, in: *Psor* (2)

DISCOLOURATION, dirty: *Psor* (3)

— yellow spots: *Psor* (2)

DRY: *Psor* (2)

— inability to perspire: *Psor* (2)

ERUPTIONS: *Psor* (3)

— bleeding: *Psor* (2)

— after scratching: *Psor* (2)

— boils: *Psor* (3)

— burning: *Psor* (2)

— coppery: *Psor* (2)

— crusty: *Psor* (2)

— body over whole: (*Psor* 2)

— fetid: (*Psor* 2)

— serpiginous: (*Psor* 2)

— desquamating: *Psor* (3)

— dirty: *Psor* (2)

— discharging, moist: (*Psor* 2)

— dry: *Psor* (2)

— eczema: *Psor* (3)

— fetid: *Psor* (3)

— herpetic: *Psor* (2)

— body all over: *Psor* (2)

— burning: *Psor* (2)

— dry: *Psor* (1)

— indolent: *Psor* (1)

— moist: *Psor* (2)

— scaly: *Psor* (2)

— itching: *Psor* (2)

— cold air, in: *Psor* (2)

— warmth agg: *Psor* (2)

— warmth—of bed agg: *Psor* (3)

— leprosy: *Psor* (2)

— overheated from being: *Psor* (2)

— pemphigus: *Psor* (2)

— pimples, itching: *Psor* (2)

— pocks: *Psor* (1)

— psoriasis: *Psor* (2)

— pustules: *Psor* (2)

— pustules—indolent: *Psor* (2)

— rash: *Psor* (2)

— scabies: *Psor* (3)

— scabies—dry: *Psor* (2)

— suppressed, mercury and sulphur with: *Psor* (3)

— scaly: *Psor* (2)

— serpiginous: *Psor* (2)

— suppressed: *Psor* (3)

— suppurating: *Psor* (2)

— urticaria: *Psor* (2)

— exercise, violent, after: *Psor* (2)

— warmth and exercise: *Psor* (2)

— vesicular: *Psor* (2)

— yellow: *Psor* (1)

— washing agg: *Psor* (2)

— winter: *Psor* (2)

EXCRESCENCES: condylomata: *Psor* (1)

— condylomata—itching: *Psor* (1)

— moist: *Psor* (1)

— humid: *Psor* (1)

FILTHY SKIN: *Psor* (3)

INACTIVITY: *Psor* (2)

ITCHING: *Psor* (3)

— biting: *Psor* (2)

— eruption, without: *Psor* (2)

— scratch, until it bleeds must: *Psor* (2)

— scratch—until it is raw: *Psor* (2)

— warm, on becoming: *Psor* (3)

— in bed, on becoming: *Psor* (3)

— wool agg: *Psor* (1)

LOUSINESS: *Psor* (2)

LUPUS: *Psor* (2)

ULCERS: *Psor* (2)

— deep: *Psor* (2)

— discharges, ichorous: *Psor* (2)

— offensive: *Psor* (2)

— putrid: *Psor* (3)

— indolent: *Psor* (2)

itching: *Psor* (2)

UNHEALTHY: *Psor* (3)

WARTS: *Psor* (2)

itching: *Psor* (1)

- moist: *Psor* (1)

7th International Homoeopathic Congress in Australia

The 7th International Homoeopathic Conference organized by the Asian Homoeopathic League (AHML) was held at Brisbane in Australia from 19th to 21st May.

It began with a bang with a show on a ferry! The scientific seminar was inaugurated by the Chairman, Dr P Pandey. Homoeopaths from Australia, New Zealand, Fiji, Germany, Bangladesh, Pakistan and India participated in the event.

Dr P Pandey from India presented a research paper on "Effectiveness of Homoeopathy in Viral diseases" covering diseases from Measles to Encephalitis.

Dr Martin of Queensland reiterated the effect of pain in muscle tissue as a lead in diagnosing the organs affected and so stressed the role of history taking and investigations in a patient. It is an indirect use of Acupuncture with Homoeopathy.

Dr Michael of Melbourne, said use of hormones during menopause can lead to diseases like cancer, obesity etc. So it would be safer to advocate Homoeopathy in such cases.

Dr Krishnamurthy of India stressed the effectiveness of *Fraxinus-americanus* 30 or 200 in uterine prolapse or fibroids.

Dr Girish Gupta presented case records of treatment of Fibroid and Cyst by reducing it to 32 % or 50 %. According to him—*Thuja, Sepia, Pulsatilla* and *Palla-*

dium are some important remedies.

An Allopath turned Homoeopath Dr V P Bansal, mentioned the role of Homoeopathy in the 21st Century and the changes it will undergo. He has successfully used potentised HIV positive blood as an intercurrent in cases of skin diseases, tumours and asthma.

Dr Alok Parikh, stressed the effectiveness of Homoeopathy over Radiation and Chemotherapy.

Dr John, Vice President of the league reiterated the role of Homoeopathy in AIDS or similar diseases.

Dr A K Seth wants the word "Classical Homoeopathy" to be erased from the Homoeopathic dictionary.

Dr Girendra Pal, Principal of Jaipur Homoeopathic Medical College proved the effectiveness of Homoeopathy in Malaria. *Ars-alb* proved to be the Genus Specific in Jaipur and Rajasthan. He stressed that the Anaemia resulting from malaria can also be treated with the remedy and no supplements are required.

A prominent Homoeopath of Australia Dr David said that *Calc-fluor* is very effective in Acute Myocardial Infarct. Patients can be saved from a coronary bypass operation. He does not stop Aspirin intake along with Homoeopathic remedy.

Dr Sajjak Khan presented cases of osteomyelitis cured by *Phosphorous, Silicea, Flouric acid* and *Strontium-carb*.

Dr Laurence, the organizer and Vice President of the Australia-Asian League wanted Homoeopaths to stop infighting and unite in order to lead Homoeopathy into the 21st century. Dr Laurence spent his hard earned money in organizing the conference. May his tribe increase.

that you must dig the bait.*

Heat Wave in Allahabad

In and around Allahabad, we had to combat Heat-Stroke / Heat exhaustion cases which affected well over 1000 patients.

With no help from the Government or administration, we formed groups of doctors who went around the city and villages giving ORS sachets and trying to help

Allahabad

out by giving health education and medicines.

Still the death toll exceeded 300 patients.

It happened so suddenly, "One person got out of the bus, took a rickshaw, put his hand in his pocket to pay the rickshaw puller and just collapsed"—nothing could be done to save him.

We distributed *Belladonna* 200 to everybody because it is appropriate for sunstroke and has sudden violent effects. We also advocated auxiliary measures.

Anyway thanks be to the Rain Gods now the temperature of 48-49° C has come down to 33-35° C.

ORT Orientation Workshop, Lucknow

In Lucknow, a large number of children die every year due to dehydration caused by diarrhoea. These deaths can easily be avoided by use of Oral Rehydration Therapy.

The Research Society of Homoeopathy had successfully organised eleven orientation workshops of Homoeopathic physicians for spreading the message of ORT during last one year. The workshops were organised at Gorakhpur, Allahabad, Varanasi, Meerut, Aza-

mgarh, Kanpur, Faizabad, Moradabad, Lucknow and Pratapgarh on local level. More than four thousand Homoeopathic physicians from more than 40 districts participated. In these workshops specialists trained the physicians about diarrhoea, their causes, prevention, cure and the usefulness of ORT.

The workshops conducted by the Research Society of Homoeopathy were greatly appreciated by Mr John Rhode, the country representative of UNICEF. Dr Verma expressed his gratitude to UNICEF and UP Government for their full co-operation extended to the Research Society in these efforts.

HMAI Seminar, Indore, July 1995

A scientific seminar on the occasion of Dr Hahnemann's birth anniversary was held in Indore on 4th July 1995. This seminar was arranged by the Homoeopathic Medical Association of Indore in collaboration with the Asian Medical League.

Hon Justice S M Shrivastav declared the Seminar open by lighting the lamp. The program was chaired by President of HMAI Dr Anand Chaturvedi.

A paper on the role of Homoeopathy in the 21st century was presented by Dr V P Bansal. He also vividly described the experiences at the 7th International Con-

gress held at Australia and also how Homoeopathy is practised there.

Dr Anant Chaturvedi lamented on the selfish motives of certain Homoeopathic pharmacies, who in order to promote their patent medicines are trying to warn the government to stop Homoeopathic practitioners from dispensing their own medicines. This would result in increase in prices of Homoeopathic medicines and will make it out of reach of poor patients. He asked every practitioner to protest against this order. Jyoti Shrivastav upheld this appeal. A Homoeopathic literary work-up was presented to Justice Shrivastav by the chairman—Dr Mahesh Gupta. The seminar concluded with a vote of thanks by Dr Rajesh Bordia.
