

Some Peculiar Cases and Rubrics

HEAT WITHOUT FEVER

So many times in our practice we come across this symptom patient complains of heat all over his body but the thermometer records normal temperature, indicating absolute normalcy in the internal thermal state. Now let me cite the repertorial analysis and indicated remedies for this symptom.

PHATAK'S REPERTORY

HEAT, FEVER WITHOUT: *Cham, Grap, Ign, Lach.*

HEAT PARTIAL, EXTERNAL: *Ars, Bell, Merc, Phos, Phos-ac, Sul.*

But in my experience I have used only *Pulsatilla* for this situation and it has never deprived me of the result.

SCHROYENS SYNTHESIS REPERTORY

HEAT FEVER: (DUE TO SUN HEAT OF SUMMER)

Pg 1507 FEVER: SUN, HEAT OF IN THE: *Ant-c, Bell, Cact, Glon, Lyss, Nat-c, Puls, Sep.*

Nowhere *Acon* is mentioned. But we know *Acon* works well AF exposure to strong dry heat or dry cold wind.

Just recently I got fever after coming from my office in the tremendous mid-day sun heat of May and my entire body was burning hot with sense of malaise and slight headache. I took 3 doses of *Acon* 30 every 15 minutes and to my satisfaction, I got rid of the feverish feeling and all other discomforts within 2 hrs.

FEVER AFTER FINANCIAL LOSS

A few yrs back I got a sudden shock of financial loss due to cheating by a chit fund company. Developed fever of fever of 101 with utter weakness, headache and humiliated feeling.

SYNTHESIS REPERTORY: Pg 6 AILMENTS MONEY FROM LOSING: *Arm; Ars; Aur; Calc; Ign; Nux-v; Puls; Rhus-*

t; Sars; Verat

Pg 192 SADNESS MONEY LOSING AFTER: *Ars*

PHATAK'S REP (B Jain 2002): Pg 159 Financial loss agg-
Arn, Ars, Aur. I took *Bry* 200 which gave me relief. (*Bry* is a businessman, he is an economic man – P Sankaran)

FLUCTUATING OR OSCILLATING FEVER: In case of fluctuating fever I tried *Puls* successfully in many patients especially children. *Pyrogenium* is also an excellent remedy for such condition of fever. (Ph: Pg 158).

PUO: Once an obese executive, 55+, known case of diabetes, on Insulin for several yrs, consulted me for long continued fever without any modality. Allopaths treated him as Pyrexia of Unknown Origin (PUO) but to no avail. I gave *Insulin* 30 which cured his long-standing fever within 2-3 days.

An M D doctor from a reputed hospital of Jabalpur consulted me for repeated fever of many days which did not yield to his conventional treatment. He tried so many pathological tests etc which did not reveal anything particular. He was growing weaker by the day with loss of appetite and had been on antibiotic since long. I gave him few doses of *Arsenic* 200 and to my pleasure, no fever. But he was in doubt that the fever may return and so he wanted me to continue the medicine for more some days. I gave him *SL* for a week and asked me to report after finishing those doses. He came with a broad smile after the doses were finished and wanted to know the name of the medicine which I know, he will never use for his patients.

HYPERPYREXIA

In case of hyperpyrexia I have used *Pyrogenium* 200 in watery solution repeating half hourly and got wonderful result. During fever if the indicated medicine is given duly diluted in water and in repeated doses say 15 to 30 minutes interval, it works well.
