## **Celebrating World Homoeopathy Day with a homoeopathic symposium on empowering research, enhancing proficiency**

### **Abstract**

The Honourable President of India, Smt. Droupadi Murmu inaugurated the scientific convention 'Empowering Research Enhancing Proficiency: A Homoeopathic Symposium' on 10th and 11th April 2024 at Yashobhoomi (India International Convention and Expo Centre), New Delhi, India. The convention which was jointly organised by the Central Council for Research in Homoeopathy, National Commission for Homoeopathy and National Institute of Homoeopathy under the aegis of the Ministry of Ayush, Government of India to commemorate the 269th birth anniversary of Dr. Christian Friedrich Samuel Hahnemann. There were a total of 17 sessions which included five panel discussions. The convention was attended by more than 6000 delegates.

## Abstract

The Honourable President of India, Smt. Droupadi Murmu inaugurated the scientific convention 'Empowering Research Enhancing Proficiency: A Homoeopathic Symposium' on 10<sup>th</sup> and 11<sup>th</sup> April 2024 at Yashobhoomi (India International Convention and Expo Centre), New Delhi, India. The convention which was jointly organised by the Central Council for Research in Homoeopathy, National Commission for Homoeopathy and National Institute of Homoeopathy under the aegis of the Ministry of Ayush, Government of India to commemorate the 269<sup>th</sup> birth anniversary of Dr. Christian Friedrich Samuel Hahnemann. There were a total of 17 sessions which included five panel discussions. The convention was attended by more than 6000 delegates.

**Keywords:** Education, Padma Awardees, Research, Symposium, Words of Wisdom, World Homoeopathy Day

## INTRODUCTION

World Homoeopathy Day (WHD), observed to commemorate the birth anniversary of Dr. Christian Fredrich Samuel Hahnemann was celebrated by Council on the 10<sup>th</sup> and 11<sup>th</sup> April 2024 at Yashobhoomi-India International Convention and Expo Centre, New Delhi, India. The Central Council for Research in Homoeopathy (CCRH), under the aegis of the Ministry of Ayush, organises a scientific event each year<sup>[1-6]</sup> with national and international participation. The event provides a platform for the exchange of best practices, research evidence and promotion of quality practice and education of Homoeopathy. This year, as in 2022, the event was jointly organised with the National Commission for Homoeopathy (NCH), Delhi and the National Institute of Homoeopathy (NIH), Kolkata. This was a symposium on the theme 'Empowering Research Enhancing Proficiency: A Homoeopathic Symposium' with an objective to collate Homoeopathic research experience with practice and academics to increase proficiency in practice. The two-day event comprised homoeopathic research-based presentations, panel discussions and exhibitions for policymakers, researchers, academicians, practitioners and students of Homoeopathy. The focus areas were clinical research, drug research, public health research and basic research and its effective communication and translation. This

was the largest gathering of the homoeopathic fraternity ever for the occasion, with 6000 participants.

## INAUGURAL CEREMONY

This mega-event was inaugurated by the Honourable President of India, Smt. Droupadi Murmu. In her inaugural address, she said that Homoeopathy's acceptance and popularity hinges on research and proficiency, which is aptly reflected in the theme 'Empowering Research, Enhancing Proficiency'. She commended the Ministry of Ayush, and its statutory, subordinate and autonomous bodies for their active role and state-level efforts for the development of Homoeopathy in the country. The Honourable President further remarked that India's strides in Homoeopathy – from the abundance of trained doctors to the establishment of research centres – are notable. Initiatives like the National Ayush Mission have expanded the reach of Indian systems of medicine and Homoeopathy, benefiting millions. Authentic medical research is crucial

for gaining scientific recognition and increasing faith in Homoeopathy, benefiting physicians, patients, manufacturers and researchers. Reflecting on our culture's reverence for healthcare practitioners, she emphasised that respect and trust in Homoeopathy will grow through systematic, authentic research. Continuous improvements in the training system, with institutions offering graduate and postgraduate education, will attract young students, ensuring a bright future for Homoeopathy. The holistic wellness perspective, encapsulated in the saying 'आरोग्यं परमं भाग्यं स्वास्थ्यं सर्वार्थ-साधनम्' (Good health is the greatest fortune. All goals are achieved through health), underscores the importance of physical, mental and spiritual health in creating a healthy society and nation. She extended her heartfelt wishes to all associated with Homoeopathy and expressed confidence in their contributions to a healthy, prosperous India. The organisers and participants of the symposium were highly encouraged and motivated by the words of the Honourable President, whose presence on WHD gave an impetus to the development of homoeopathic research, education, practice and industry on high-quality standards.

Vaidya Rajesh Kotecha, Secretary, Ministry of Ayush, mentioned that it was the largest assembly of Homoeopathy in the country and any Ayush event to date. The day celebrates Homoeopathy's rich heritage and its unique approach to healing that has touched countless lives. The presence of Honourable President of India signified Homoeopathy's importance in our healthcare ecosystem, and the presence of revered Padma awardees, on the occasion inspired the younger generation to advance this field. This event focused on enhancing Homoeopathy with high-quality diagnostics, therapeutic data, treatment protocols and scientific preventive tools, brings together stakeholders to discuss research, clinical trials, education and more. Homoeopathy, with its core principles of 'like cures like' and individualised treatment, offers a gentle, holistic approach to healing, earning a loyal following worldwide. It is effective and safe, especially in chronic conditions, and the ministry is working to strengthen its scientific foundation and standardised practices to enhance credibility and acceptance. The government is committed to promoting quality homoeopathic education and research, integrating it into primary healthcare systems and ensuring patient safety. Reflecting on the enthusiasm of this gathering, with the efforts of students, researchers, practitioners and policymakers in advancing Homoeopathy, the government can create a robust healthcare ecosystem, with a commitment to a healthier world.

Dr. Subhash Kaushik, Director General, CCRH, on behalf of the CCRH and the entire homoeopathic fraternity and Ayush community, extended a warm welcome to the esteemed Chief Guest, Honourable President of India, Smt. Droupadi Murmu ji, for her gracious presence, blessings, and inspiring words at the World Homoeopathy Day celebrations and emphasising the importance of advancing Homoeopathy for global health. He also welcomed Vaidya Rajesh Kotecha, Secretary, Ministry of Ayush, Padma Bhushan and Padma Shri Vaidya Devendra

Triguna, Padma Shri Dr. H.R. Nagendra, Padma Shri Dr. V.K. Gupta, Padma Shri Dr. Kalyan Banerjee, Padma Shri Dr. Mukesh Batra and Padma Shri Dr. R.S. Pareek. He acknowledged the participation of senior officials of Ministry of Ayush, heads of Ayush organisations and other medical and research organisations, senior practitioners, researchers, academicians, students and all the delegates. Celebrating Homoeopathy's rich heritage, the aim of the convention was to promote evidence-based scientific treatment and empower the homoeopathic fraternity with quality diagnostics and scientific tools. CCRH reaffirms its commitment to advancing Homoeopathy for the well-being of all by developing research-based resources.

Subsequent to the inaugural ceremony, the session was continued with felicitation of honourable Padma Awardees.

## WORDS OF WISDOM

During WHD 2024, Padma Bhushan and Padma Shri Vaidya Devendra Triguna ji, renowned ayurvedic physicians highlighted the immense global recognition of Homoeopathy, which is an integral part of Indian healthcare and emphasised the role of Ayush system's in promoting health and wellness. Padma Shri Dr. H.R. Nagendra, Chancellor from SVYASA lauded the remarkable aspect of Homoeopathy where drug effectiveness increases with serial dilutions or potentisations, driven by quantum electronic dynamics, and the concept of *prana shakti* enhancing medicine efficacy. Padma Shri Vaidya Rajesh Kotecha noted the rapid development of the homoeopathic sector with colleges providing high-quality education and emphasised interdisciplinary involvement in homoeopathic research. Padma Shri Dr. V.K. Gupta, Chairman Scientific Advisory Board of CCRH, acknowledged the government's support in Homoeopathy's growth and development in the country, emphasising on the need for skill development and systematic research. Padma Shri Dr. Kalyan Banerjee, senior homoeopathic physician, highlighted Homoeopathy's critical role during the COVID-19 pandemic and its essential services in rural India, advocating for evidence-based practice. Padma Shri Dr. Mukesh Batra described Homoeopathy as both science and art, urging practitioners to strive for excellence and measure success by individual patient outcomes. Padma Shri, Dr. R.S. Pareek emphasised the core principle of 'Similia Similibus Curentur', the continuous learning process in Homoeopathy, and the importance of presenting scientific cures with evidence, advocating for honesty and scientific integrity in practice.

## RELEASES

CCRH released several key publications and other items including the Event Souvenir WHD 2024, given in Box 1.

The Ayush vertical of the Directorate General of Health Services developed Standard Treatment Guidelines for Musculoskeletal System Conditions in Homoeopathy, Ayurveda, Siddha and Unani with Yoga as an integral component under the National Ayush Mission. These Standard

**Box 1: Releases during Convention.**

Books	<ol style="list-style-type: none"> <li>1. Homoeopathic Drug Proving – Volume 7</li> <li>2. Drug Monograph – <i>Rauwolfia serpentina</i></li> <li>3. A Glimpse of History, Struggle and Progress of Homoeopathy in Northeast India</li> <li>4. Keynotes of Homoeopathic Materia Medica – Volume III</li> <li>5. Pocket Manual of Activities and Achievements of CCRH</li> <li>6. English translation of Homoeopathic Materia Medica by Dr. Neelmani Ghatak – Volume I</li> <li>7. Drugs of Animal Sources used in Homoeopathy – Volume II</li> <li>8. Second Revised Edition of Standardisation of Homoeopathic Drugs – Volume I</li> <li>9. Indian Journal of Research in Homoeopathy – Volume 18, Issue 1 (Jan to March 2024)</li> </ol>
Brochures	<ol style="list-style-type: none"> <li>1. Brochure of STGH app – mobile application on Standard Treatment guidelines in Homoeopathy</li> <li>2. Brochure on CCRH</li> <li>3. Brochure on Homoeopathy for Antimicrobial Resistance</li> <li>4. Brochure on Homoeopathy Clinical Care Repository (HCCR) Workflow</li> </ol>
Documentaries/ short promo videos	<ol style="list-style-type: none"> <li>1. Documentary on Drug Proving – a research program in Homoeopathy</li> <li>2. STGH app – mobile application on standard treatment guidelines</li> <li>3. HIDOC: an online union catalogue (revamped version)</li> </ol>

Treatment Guidelines were also released on the occasion of WHD in the presence of Dr Atul Goel, Director General Health Services. Furthermore, a publication entitled ‘Boenninghausen Boger Final General Repertory (BBFGR)’ by Dr. Shashi Kant Tiwari and Dr. Sathish Kumar was also released.

The inaugural ceremony was telecasted trended live from the YouTube and Facebook live channels of the Ministry of Ayush and of the CCRH with hashtags #WHD2024 and #UniteForHomoeopathy. The session-wise details are given in Table 1.

## ROAD MAP FOR EMPOWERING HOMOEOPATHY-MODERN PERSPECTIVES

During this session, Dr. Sangeeta A. Duggal, emphasised on the empowerment of homoeopaths through realistic goals, collaboration and quality maintenance, highlighting key initiatives of Ministry of Ayush such as AYURGYAN and National Ayush Mission. She recommended adopting the ‘Analysis, Design, Development, Implementation and Evaluation (ADDIE)’ model to enhance proficiency in Homoeopathy.

Dr. Raj K. Manchanda discussed the historical context, the WHO’s strategy for standardisation and India’s global influence, stressing the need for standardisation in drugs, education and clinical practice. He outlined the roadmap of developing quality standards at the Bureau of Indian

Standards (BIS) for Homoeopathy, by identifying key areas and developing technical documents.

Chairperson, Dr. V.K. Gupta appreciated the speakers and highlighted the importance of standardised approaches, noting the BIS’s proactive role and the potential of Homoeopathy revealed during the COVID-19 pandemic. Dr. Anil Khurana echoed the need for standardised manufacturing processes and global benchmarks for homoeopathic education, thanking the speakers for their valuable insights.

## EMPOWERING HOMOEOPATHY: CLINICIAN’S PERSPECTIVE

Dr. Farokh J. Master demonstrated successful management of invasive ductal cell carcinoma of breast with metastasis using a constitutional approach and intercurrent medicines. Dr. Jaswant Singh D. Patil highlighted the scientific explanation and successful cases of cancer and other ailments treated with Homoeopathy. Dr. Girish Gupta discussed cases of cystic hygroma managed effectively with constitutional treatment, emphasising Homoeopathy’s role where surgical options had limitations. Dr. B. S. Johri addressed genetic disorders, stressing early intervention and homoeopathic treatment benefits, particularly in conditions such as autism spectrum disorders and cerebral palsy.

Chairpersons Prof. L.K. Nanda and Dr. Manmohan Mehndiratta acknowledged the educational value and clinical insights provided by the speakers and advocated for a multidisciplinary approach and integration of Homoeopathy with strong scientific evidence in medical practice.

## EMPOWERING HOMOEOPATHY – ADVANCING PRACTICE

Dr. Lex Rutten discussed the evolution of data utilisation in Homoeopathy, emphasising the shift toward modern statistical methods for accurate analysis, akin to advancements seen in conventional medicine. Dr. Alok Pareek underscored the role of clinicopathological data in enriching homoeopathic research, proposing clinical verification and drug proving of remedies to expand the clinical Materia Medica. Dr. Rajat Chattopadhyay highlighted the importance of updating homoeopathic Materia Medica with modern clinical knowledge to enhance accuracy and relevance in remedy selection.

The session concluded with the remarks of the Chairpersons Dr. Kanjaksha Ghosh and Prof. (Dr.) SK Bhattacharya who stressed on the need for stronger integration between homoeopathic research and clinical practice to improve treatment approaches.

## PANEL DISCUSSION: BRIDGING THE GAP IN TRANSLATIONAL RESEARCH – A LEADERSHIP PERSPECTIVE

Dr. Subarna Roy emphasised the urgent need for advanced translational research in Homoeopathy, highlighting its role in

bridging basic sciences with clinical practice. She underscored three crucial characteristics essential for translational research: ensuring acceptability by patients and the medical community, rigorous scientific validation of practices and establishing necessary regulatory frameworks. Dr. Baskaran Jegadish discussed a research study, jointly conducted by CCRH and Apollo Cancer Institute, demonstrating the potential of potentised chemotherapy drugs in managing the side effects of chemotherapy drugs used in cancer treatment. Dr. Amit Awasthi discussed the significance of translational research during the COVID-19 pandemic, highlighting collaborative efforts with the Translational Health Sciences Research Institute to validate molecular efficacy of homoeopathic drugs corroborating with evidence in clinical trials. Innovative approach combining homoeopathic principles with modern technology opens avenues for collaboration across interdisciplinary fields to develop safe and effective homoeopathic treatment modalities.

Chairperson Dr. Subhash Kaushik emphasised the importance of continuing such collaborative efforts to ensure evidence-based advancements in therapeutic efficacy and safety.

## BUILDING THE EVIDENCE BASE: RESEARCH AND PRACTICE EXPERIENCE

Dr. Anju Valsan presented findings of homoeopathic treatment on improving the quality of life (QoL) in cancer patients, underscoring the need for further comparative studies on larger scales and durations across multiple centres. Dr. Prashant Tamboli discussed the integrative approach to managing diabetic ketoacidosis (DKA) with homoeopathic remedies, highlighting the role of susceptibility and individualisation in treatment efficacy. Dr. Anupriya Chaudhary presented promising results of adjuvant homoeopathic therapy in reducing annual bleeding rates in patients with Haemophilia, emphasising its potential as a cost-effective adjunct to conventional treatments. Dr. Amit Sahani's study on singular remedy rubrics demonstrated their efficacy in chronic disease management, reinforcing the holistic approach of Homoeopathy.

Chairpersons Dr. Niranjan Mohanty and Dr. M. P. Arya stressed the importance of rigorous research to establish Homoeopathy as a science and integrate research findings into clinical practice for broader impact and advancement. These presentations collectively highlight the ongoing efforts to validate and integrate Homoeopathy into mainstream healthcare through evidence-based research and practice.

## EPIDEMIC AND PUBLIC HEALTH: RESEARCH EXPERIENCES

Dr. Debadatta Nayak presented findings on the beneficial impact of homoeo-prophylactic *Arsenic album* 30 in reducing COVID-19 vaccine-related adverse events, underscoring its role in enhancing immunisation compliance during the

pandemic. Dr. Harleen Kaur provided a comparative analysis of Homoeopathy's integration into global public health systems, drawing insights from diverse national strategies and user demographics. An overview of the Council's Journal, Indian Journal of Research in Homoeopathy (IJRH) highlighted its role as a prestigious platform for disseminating homoeopathic research. Dr. R. Bhuvaneswari's study on *Folliculinum* 6C as an adjunct in the management of polycystic ovarian disease demonstrated promising results in inducing ovulation, emphasising personalised homoeopathic approaches in reproductive health. Dr. Deepti Singh's presentation explored the rising global utilisation of Homoeopathy, emphasising demographic profiles and its integration into national health surveys as a complementary treatment option.

Chairperson Dr. Chaturbhuja Nayak commended the comprehensive insights shared, emphasising the scientific validation and diverse applications of Homoeopathy across different healthcare settings globally, marking significant strides in its integration and acceptance.

## REFORMS IN EDUCATION SECTOR: BUILDING ACADEMICS

Dr. Tarakeshwar Jain detailed the regulatory reforms undertaken by the NCH, which aims to enhance undergraduate and postgraduate education in Homoeopathy, and emphasises curriculum restructuring and the integration of subjects such as psychology and yoga to enrich BHMS practice. He highlighted the introduction of skill laboratories and comprehensive internship programs to foster practical learning, underscoring the importance of competency-based education standards. Dr. K.R. Janardanan Nair presented the role of the Medical Assessment and Rating Board in evaluating homoeopathic institutions, emphasising transparency and accountability in assessing infrastructure, faculty and research. He advocated for standardised education and international collaborations to validate homoeopathic practices globally. Dr. Pinakin N. Trivedi outlined the efforts of the Board of Ethics and Registration for Homoeopathy in regulating over 3 lakh practitioners, focusing on ethical standards and uniform registration processes nationwide. He emphasised the initiative 'One Nation, One Registration' to streamline practice authorisation and ensure professionalism.

Chairpersons of the sessions were the Chairpersons of the NCH, National Medical Commission and National Commission for Indian Systems of Medicine, Dr. Anil Khurana, Dr. B.N. Gangadhar and Vaidya Jayant Deopujari, respectively. The Chairpersons discussed the potential growth in medical care quality with ongoing reforms being undertaken in education, practice and research. It is imperative to promote integrative healthcare across India's medical landscape, for which the three medical commissions need to work in coordination with each other.

## ADVANCES IN INTERDISCIPLINARY RESEARCH CONCEPTS AND DATA CURATION

Dr. Subarna Roy initiated the panel discussion on collaborative research experiences with CCRH, addressing challenges and strategies for future interdisciplinary projects. Dr. Sukhbir Kaur shared her successful project on Leishmania and Malaria nosodes, emphasising the importance of clear operating procedures to overcome *in vivo* and *in vitro* testing variability. Prof. (Dr.) Alok Chandra Bharti highlighted molecular research's potential in clinical practices, noting that homoeopathic plant-derived molecules showed promising anti-cancer properties. Dr. B. Vidya Sagar discussed agro-Homoeopathy's success in managing groundnut stem rot, advocating for Homoeopathy's integration into plant disease management and its economic benefits and disease suppression capabilities. Dr. N. Sreekumaran Nair stressed the importance of rigorous data curation to ensure study accuracy and reliability. On concluding the session, Dr. Roy emphasised the necessity of integrative research for patient benefits, exploring bio-similars and generating high-quality data to mitigate bias and enhance reproducibility.

## ADVANCES IN HOMOEOPATHIC DRUG STANDARDISATION: OPTIMISING BASIC RESEARCH

Dr. Binit Kumar Dwivedi presented standardisation data of *Hydrocotyle asiatica*. Dr. Varsha Umesh Ghate presented the standardisation parameters of homoeopathic drugs through liquid chromatography fingerprinting, specifically detailing that of *Rauwolfia serpentina* Mother Tincture. Dr. Shilpi Singh discussed enhancing the quality control of herbal medicines through advanced botanical identification techniques, stressing the need for robust parameters. Dr. Anshul Shah introduced a novel drug delivery process using mist spray forms to enhance the efficacy and recovery rate with homoeopathic treatments.

Chairpersons Dr. Raman Mohan Singh and Dr. Sunil Ramteke lauded these contributions, advocating for the incorporation of advanced methodologies in Homoeopathy to ensure the safety, efficacy and quality of formulations through optimised basic research.

## HOMOEOPATHY – GLOBAL PERSPECTIVES

Dr. Luis Gabriel Pineros traced Colombia's homoeopathic education journey from its inception in 1914, through policy shifts, to the revitalisation in 2007 with the Human Research in Health Law, highlighting significant milestones like the establishment of Juan N. Corpas University. Dr. Lex Rutten described the decline of Homoeopathy in the Netherlands due to media criticism but noted a rising scepticism toward conventional medicine, emphasising the need for Homoeopathy to carve its own scientific path. Dr. Gualberto Diaz Saez detailed Spain's rigorous homoeopathic training, the role of patient advocacy and the collaborative efforts leading

to Homoeopathy's regulation. Finally, he invited participation in the upcoming LMHI 2024 conference. Dr. German Dario Benitez reported on Colombia's new legal framework allowing homoeopathic consultations within the national health system and emphasised the importance of clinical research. Dr. Bhupinder Pal Sharma discussed Canada's regulatory efforts, challenges from media scepticism and the necessity for organised research, highlighting a partnership with the CCRH.

Chairpersons Dr. N Radha and Dr. Nandini Kumar underscored the global recognition and varying acceptance of Homoeopathy, advocating for standardised educational programs and international collaboration to achieve broader acceptance, aligning with the 'One Family, One Nation, One Health' vision proposed at the G20 summit.

## RESEARCH IN EDUCATIONAL INSTITUTES

Dr. KC Muralreedharan highlighted the extensive infrastructure supporting Homoeopathy education and research in India, underscoring the role of the National Education Policy (NEP) 2020, University Grants Commission (UGC) guidelines and NCH regulations in enhancing research skills. He emphasised on initiatives being undertaken at CCRH to foster research among the student community. Prof. Dr. Shubhamoy Ghosh discussed the classification of medical research, emphasising Evidence-Based Medicine (EBM) and its impact on healthcare quality. He detailed the systematic reviews, meta-analyses and clinical trials, advocating for EBM skills and interdisciplinary research. Dr. Renu Mittal detailed the Good Clinical Practices guidelines for clinical trials in Homoeopathy (GCP – Homoeopathy), to ensure the credibility and integrity of trial data. Dr. Navin Pawasker emphasised the importance of conducting research in academic institutions along with academic training and discussed the challenges for the same.

Chairperson Dr. Hari Singh emphasised developing research methodology training programs advocating for the early integration of research tools in homoeopathic graduation education. The session concluded with a call for comprehensive research efforts by scientists and academicians.

## CHARACTERISING HIGH DILUTIONS

Dr. Yuvaneshwaran AR presented findings of an anti-cancerous activity of *Ornithogalum umbellatum*, demonstrating through MTT (3-(4,5-dimethylthiazolyl-2)-2, 5-diphenyltetrazolium bromide) assay that the 30C potency significantly reduced cell viability to 45%, indicating its potential effectiveness in treating colon cancer, unlike higher potencies. Dr. Ritika Hassija Narula reviewed 60 studies on nanoparticles in homoeopathic drugs, emphasising the need for multidisciplinary research to validate the presence and therapeutic effects of these nanoparticles. Dr. Sangeeta Behra's study on *Matricaria chamomilla*'s safety during pregnancy, using zebrafish embryos, found that 6C and 30C potencies were safe, during embryonic development. Dr. Mahima Sharma highlighted *Ferrum phosphoricum*'s immunomodulatory effects, particularly at higher dilutions,

demonstrating enhanced humoral immune response in BALB/c (Bagg Albino) mice.

Chairpersons Dr. Sharmila Mande and Dr. S.P. Singh emphasised the necessity for more *in vitro* and *in vivo* studies, proper controls using succussed and unsuccussed alcohol, and reproducibility of results to ensure the validity of the outcomes.

## VETERINARY HOMOEOPATHY

Dr. Surjit Makkar highlighted veterinary Homoeopathy's holistic approach, which complements traditional medicine by enhancing the body's natural healing process. He presented successful treatments of various animal conditions and emphasised the potential of integrating Homoeopathy with artificial intelligence (AI) for diagnostic accuracy. Dr. Bimal Choudhary discussed the role of veterinarians in antimicrobial resistance (AMR) and introduced initiatives to integrate Homoeopathy and Ayurveda into veterinary science, presenting a study where Homoeopathy outperformed conventional treatments in viral infections. Dr. Vikram S. Jani presented Amul Dairy's efforts in reducing antibiotic use through homoeopathic treatments, achieving an 84% recovery rate in animals without antibiotics. Dr. Shanker Singh shared the efficacy of homoeopathic remedies in treating dermatological conditions, highlighting the need to explore their molecular mechanisms.

Chairpersons Sh. A. P. M. Hanish and Dr. A.K. Srivastava emphasised the importance of interdisciplinary approaches and the benefits of Homoeopathy in combating AMR, promoting animal welfare and safeguarding human health. The session concluded with calls for continued research and integration of homoeopathic practices in veterinary medicine to enhance overall health and well-being.

## CHALLENGES IN HOMOEOPATHY – ROLE OF HOMOEOPATHIC PROFESSIONAL ASSOCIATIONS

Dr. A.K. Gupta emphasised the need for the homoeopathic fraternity to unify under a single umbrella to effectively communicate with authorities, suggesting a collaboration between CCRH and professional associations to bridge the gap between research findings and general practitioners. Dr. Nirmal Jit Singh supported this by highlighting the role of associations in fostering faith among practitioners. Dr. Sayed Tanvir Hussain identified challenges such as a lack of knowledge, passion and adherence to homoeopathic principles, and advocating for government consultation with professional associations on policy matters. Dr. Dhiraj Prem Kumar Samuel pointed to internal and external issues, emphasising the need for a scientific presentation of cases and government support in legal battles. Dr. Rajesh R.S. requested the inclusion of associations in research collaborations, citing the valuable clinical evidence held by rural practitioners.

Chairperson Dr. J.D. Daryani stressed the importance of ethical values and the revalidation of research evidence, while Dr. A.K. Dwivedi highlighted funding concerns and the

need for united action among associations. The discussions underscored the critical role of professional associations in advancing homoeopathic practice, education and research, advocating for greater integration and support to enhance the field's credibility and effectiveness.

## QUALITY ASSURANCE IN HOMOEOPATHIC MEDICINAL PRODUCTS AND SERVICES: REGULATORY INSIGHTS AND MARKET STRATEGIES

Dr. Punam Bajaj discussed NABH's accreditation standards for homoeopathic hospitals, highlighting the development of integrated standards for Ayush facilities to ensure international recognition. Dr. R.N. Wahi emphasised the importance of these standards for positive change and clinical data management. Dr. Rajesh Shah stressed the need for standardised services for medical tourism and online consultations, and standards for nosodes and sarcodes. Dr. Rachna Sehgal detailed BIS's role in improving traditional medicines' quality and global acceptance. Dr. Rachna Paliwal outlined the regulatory framework for homoeopathic drugs under the Drugs and Cosmetics Act, noting significant growth in the Ayush sector and pharmacovigilance centres. Dr. Sudipta Narayan Roy called for more clinical trials and addressed the cost disparity of single medicines. Dr. Prakash Joshi and Dr. Mudita Arora highlighted issues with raw materials and the need for stringent regulations. Mr. Nishant Jain and Mr. R. Valavan discussed challenges faced by manufacturers regarding revenue and data availability. Mr. Praveen Kumar Mittal emphasised the importance of quality for improving exports. Dr. Abhijit Dutta discussed barriers to exports and the Ministry of Ayush collaborations. Dr. S.B. Dangayach recommended structural discussions and a national nosode mission for research. Dr. Subhash Gupta advocated for standardised drug dispensing. Dr. Jawahar Shah highlighted technological advances in Homoeopathy. Dr. D.R. Lohar emphasised collaboration among education, profession, industry and regulatory bodies.

Chairpersons Dr. Raj K. Manchanda and Dr. Raman Mohan Singh stressed patient-focused quality care and India's leadership in Homoeopathy, while Dr. Sangeeta A. Duggal appreciated the collaborative spirit and comprehensive discussion fostering growth and innovation.

## CLINICAL RESEARCH APPROACHES: OPTIMISING BENEFITS

Dr. Varanasi Roja presented findings from an open-label randomised controlled trial on individualised homoeopathic intervention in dyslipidaemia. The study, involving 217 participants, showed significant improvements in low-density lipoproteins levels and increase in high-density lipoproteins levels and changes in associated symptoms. Dr. Pritha Mehra discussed a homoeopathic pathogenetic trial of *Catharanthus roseus*, noting potential therapeutic implications, including effects on blood pressure and insulin production. Dr. Suhana

P. Azis reviewed homoeopathic interventions in eliminating Lymphatic Filariasis (LF), emphasising remedies such as *Apis mellifica* and *Rhus toxicodendron*. Dr. Jyoti Chhikara presented the results of a pilot study at AIIMS, New Delhi, demonstrating improvements in respiratory function and quality of life in post-COVID-19 patients with homoeopathic treatment. Dr. Hima Bindu correlated post-traumatic stress symptoms with homoeopathic medicines using the Diagnostic and Statistical Manual (DSM)-5 criteria, highlighting the relevance of Homoeopathy in mental health. Dr. Nidhi Mahajan explored the alignment of homoeopathic medicine symptoms with DSM-5 criteria for personality disorders, identifying partial overlaps.

Chairpersons, Dr. S.K. Tiwari and Dr. Arvind Kothe praised the innovative works, emphasising the need for clear protocols and multidisciplinary approaches in homoeopathic research.

## CCRH RESEARCH-CURRENT SCENARIO AND FUTURE PERSPECTIVE

Dr. Subhash Kaushik highlighted the CCRH's commitment to advancing Homoeopathy through rigorous research and practical applications. The organisation, under the Ministry of Ayush, conducts credible research across 35 institutes in India, focusing on drug standardisation, clinical research and public health programs. Dr. Shaji Kumar emphasised infrastructure expansion and quality accreditations, while Dr. Suniti Chugh discussed research dissemination through publications and international platforms. Dr. Bharti Wadhwa detailed initiatives linking research with education, including a webinar series for students. Mrs. Meenakshi Bhatia presented the CCRH library's digital initiatives, including an e-Library Consortium and an online Archive on Homoeopathy. Dr. Divya Taneja discussed the public healthcare activities and data-driven initiatives of CCRH. Dr. Sunil Ramteke outlined CCRH's comprehensive research activities and state-of-the-art facilities. Dr. Manas Sarangi highlighted achievements in publications, patents and social media outreach.

Chairperson Mr. B.K. Singh emphasised the enhancement of infrastructure, targeted research and AI-driven healthcare advancements, praising CCRH's effective use of information technology and successful engagement efforts.

## SUCCESS STORIES AT NIH IN CLINICAL PRACTICE AND RESEARCH

Dr. Subhash Chaudhary presented a case report on a patient with multiple uterine leiomyomas, demonstrating significant improvement within 4 months of homoeopathic treatment. Prof. (Dr.) Ompriya Mishra shared a case series of recurrent abortion patients, showcasing the effectiveness of individualised homoeopathic treatment in achieving full-term pregnancies without complications. Dr. Swapan Paul reported a 10-year-old papilloma case with marked improvement in 4 months, underscoring Homoeopathy's efficacy in chronic conditions. Prof. (Dr.) Avijit Shee Burman detailed a case of a 10-year-old

child with atopic dermatitis and elevated Immunoglobulin-E levels, noting improved quality of life and resolution of skin lesions through constitutional Homoeopathy. Dr. Ramkrishna Ghosh highlighted a pituitary macroadenoma case managed successfully with Homoeopathy, avoiding invasive procedures. Prof. (Dr.) Prasanta Rath presented an evidence-based case of a 69 years old with a pituitary macroadenoma, achieving symptom cessation and improved quality of life through homoeopathic remedies. Prof. (Dr.) Gautam Pal discussed a case of a 3-year-old child with Tetralogy of Fallot, noting symptomatic relief and quality of life improvements with individualised homoeopathic treatment. Dr. Loknath Behera shared a case of recurrent melanotic ulcers, where Homoeopathy led to complete recovery from malignant melanoma within a month. Dr. Raja Manoharan presented an experimental study on female mice, demonstrating the anti-inflammatory and antioxidant potential of *Condurango* in treating inflammatory bowel disease.

## VALEDICTORY SESSION

WHD 2024 culminated in the Valedictory Ceremony on 11<sup>th</sup> April 2024, marking the end of a 2-day scientific conference and symposium inaugurated by Honourable President Droupadi Murmu at Yashobhoomi Convention Centre, New Delhi. In this session, 84 students were awarded scholarships under Short-Term Studentship in Homoeopathy (STSH) and 13 under the Quality MD dissertation scheme of the CCRH. The ceremony also saw the launch of a compilation of research papers on Homoeopathy in COVID-19. Dr. Subhas Singh and Dr. Anil Khurana emphasised the importance of evidence-based research and education in Homoeopathy. Dr. Subhash Kaushik expressed gratitude to all participants and contributors, including the Honourable President of India. The event concluded with group photographs and vibrant cultural performances, celebrating the spirit of teamwork and unity.

## POSTER PRESENTATIONS

Poster presentations were held on both days of the conference. The posters were displayed in two exclusive halls. The authors presented and discussed their posters with the delegates in the allotted time slots. Eighty-four participants presented their posters in definitive time slots during these two days. By empowering homoeopathic research papers through poster presentations at this scientific convention, it was clear that the homoeopathic research practice can thrive and, therefore, enhance both personal and professional growth.

## MEDIA COVERAGE

The event was widely covered in mainstream and social media. With more than 85 news items in multiple languages including English, Hindi, Tamil, Gujarati and Marathi, the event garnered much interest. Furthermore, social media channels of Hon'ble President of India, Ministry of Ayush and CCRH propagated the event through videos, short talks, photographs and brief notes,

which were much appreciated by the wide base of followers. An interview of the Director General CCRH was aired by the All India Radio. The event was much appreciated among researchers and homoeopathic educators. The presence and enthusiasm of the student community at the symposium were highly remarkable.

Note: Event program schedule and photos are on pages 291-303.

## CELEBRATING WORLD HOMOEOPATHY DAY WITH A HOMOEOPATHIC SYMPOSIUM ON EMPOWERING RESEARCH, ENHANCING PROFICIENCY

### INAUGURAL SESSION

Hon'ble President of India, Smt Droupadi Murmu being felicitated by Vaidya Rajesh Kotecha, Secretary, Ministry of Ayush

Hon'ble President of India addressing the gathering of over 6000 delegates

Hon'ble President of India lights the lamp for an auspicious start to the event

Hon'ble President of India with Vaidya Rajesh Kotecha, Secretary, Ministry of Ayush on right, and Dr. Subhash Kaushik on left side

### WORDS OF WISDOM SESSION

**Words of Wisdom:** (L-R: Dr Atul Mohan Kochhar, Dr. R.S. Pareek, Dr. Sangeeta Duggal, Dr. Mukesh Batra, Vaidya Rajesh Kotecha, Dr. HR Nagendra, Vaidya Devendra Triguna, Dr. V K Gupta, Dr. Kalyan Banerjee, Dr. Anil Khurana, Dr. Subhas Singh, Dr. Tarkeswar Jain, Dr. Pinakin Trivedi, Dr. Janardhan Nair and Dr. Subhash Kaushik)

## SCIENTIFIC SESSIONS

### Road Map for Empowering Homoeopathy-Modern Perspectives

**Session I:** Centre - Dr VK Gupta, Chairperson of the session along with Dr N Radha, Dr Sangeeta A Duggal, Dr KC Muraleedharan, Dr Anuj on his left; Dr Anil Khurana, Dr Raj K Manchanda, Dr Deepti Singh on his right

### Session: Empowering Homoeopathy: Clinician’s Perspective:

**Session 1:** Chairpersons of the session being felicitated with the Mementos by Deputy Director General, CCRH

### Session: Empowering Homoeopathy- Advancing Practice

**Session i:** From left to right: Dr. Karanpreet Nahar, Dr. Kanjaksha Ghosh, Prof. Dr. SK Bhattacharya, Dr. RS Pareek, Dr. Alok Pareek, Prof. Dr. Rajat Chattopadhyay, Dr Lex Rutten and Dr. Varanasi Roja

### Session: Epidemic and Public Health: Research Experiences

**Session ii:** Epidemic and Public health: Research Experiences: (L to R): Dr. Harleen Kaur, Dr Vaishali Shinde, Dr Kanjaksha Ghosh, Dr. Chaturbhuja Nayak, Dr Debadatta Nayak, Dr Deepti Singh, Dr R. Bhuvaneshwari, Dr Bharti Washwa

### Session: Building the Evidence Base: Research & Practice Experience

**Session 2:** Chairpersons and speakers (L to R): Dr. Pritha Mehra, Dr. Amulya Ratna Sahoo, Dr. Amit, Dr. Anupriya, Dr. M. K. Sahani, Dr. N. Mohanty, Dr. S. K. Tiwari, Dr. Anju Valsan, Dr. Prashant Tambole and Dr. M. P. Arya

### Session: Panel Discussion: Bridging the Gap in Translational Research – A Leadership Perspective

**Panel Discussion:** Bridging the Gap in Translational Research: A Leadership Perspective (L-R:Dr.Shaji Kumar, Dr. Amit Awasthi, Dr. Bhaskaran Jegadish, Dr. Subhash Kaushik, Dr. Subarna Roy, Dr. Suhana P. Azis)

**Session: Reforms in Education Sector: Building Academics**

**Session III:** Felicitation of Dr. B.N. Gangadhar, Chairman NMC (at centre) by Dr. Anil Khurana, Chairperson, NCH (Right) and Vaidya Jayant Deopujari, Chairman, NCISM (Left)

**Session: Panel Discussion: Advances in Interdisciplinary Research Concepts and Data Curation**

**Session 3:** Panel discussion: Left to Right: Dr Pooja Gautam, Dr Ritika Hassija Narula, Dr B. Vidya Sagar, Prof. (Dr.) Alok Chandra Bharti, Dr N. Sreekumaran Nair, Dr. Sukhbir Kaur, Dr. Subarna Roy.

**Session: Advances in Homoeopathic Drug Standardisation: Optimising Basic Research**

**Session iii:** Panel discussion (L to R) Dr GV Narasimha Kumar, Dr Pankaj Gupta, Dr Raman Mohan Singh, Dr Sunil S Ramteke, Dr AKS Rawat, Dr Binit Dwivedi, Dr Anshul Shah, Dr Shilpi Singh

**Session: Panel Discussion: Homoeopathy- Global Perspectives**

**Session IV:** Panel discussion: (L to R) Dr. Harleen Kaur, Dr. Luis Gabriel Pineros, Dr. Lex Rutten, Dr. Alberto Sacristan Rubio, Dr. Nandini Kumar, Dr. Guelberto Jose Diaz Saez, Dr. N Radha, Dr. German Dario Benitez, Dr. Raj K Manchanda, Dr. Bhupinder Pal Sharma, Dr. Anupriya

**Session: Research in Educational Institutes**

**Session 4:** (l to r): Dr Tanya Rai, Dr Manas R Sarangi, Dr Liyi Karso, Dr Nirupama Mishra, Dr Renu Mittal, Dr S K Dey, Dr. Shubhomoy Ghosh, Dr. Hari Singh, Dr. KC Muraledharan and Dr. Navin Pawasker

**Session: Characterizing high dilutions**

**Session iv:** From left to right: Dr. Shweta Gautam, Dr. Sangeeta Behra, Dr. Yuvaneshwaran A R, Dr. Sharmila S Mande, Dr. Ritika Hassija Narula, Dr. Kanjaksha Ghosh, Dr. S P Singh, Dr. Mahima Sharma, Dr. Debadatta Nayak

**Session: Veterinary Homoeopathy**

**Session VI:** Left to Right: Dr. Suniti Chugh and Dr. Lipipushpa Debata, Dr. Surjit Makkar; Dr. A.K. Srivastava, Sh. A. P. M. Hanish, Dr. Shanker Singh; Dr Vikram S. Jani and Dr. Bimal Choudhary

**Session: Clinical Research Approaches: Optimizing benefits**

**Session 6:** Clinical Research Approaches: (l to r): Dr Manas R Sarangi, Dr Ritika Hassija Narula, Dr Suhana P Aziz, Dr Varanasi Roja, Dr Pritha Mehra, Dr Arvind Kothe, Dr J D Daryani, Dr M P Arya, Dr S K Tiwari, Dr P Himabindu, Dr Jyoti Chikkara and Dr Nidhi Mahajan

**Session: Panel discussion: Quality Assurance in Homoeopathic Medicinal Products and Services: Regulatory Insights and Market Strategies**

**Session VII:** Panel discussion (L to R Mr Nishant Jain, Dr. R Valavan Dr. Jawahar Shah, Dr. Subhash Gupta, Dr. S.B. Dangayach, Dr. R.N.Wahi, Dr. Mudita Arora, Dr. Rajesh Shah, Dr. Raman Mohan Singh, Dr Subhash Kaushik, Dr. Raj K Manchanda, Dr. Sangeeta A Duggal, Dr. Rachna Sehgal, Dr. Punam Bajaj, Dr. Rachna Paliwal, Dr. Sudipta Narayan Roy, Dr. Abhijit Dutta, Dr D R Lohar, Dr. Kumar Vivekanand, Dr. Chetna Deep Lamba

**Session: CCRH Research-Current Scenario and Future Perspective**

**Session VIII:** CCRH Research-Current Scenario and Future Perspective: (L to R) Mrs Meenakshi Bhatia, Dr. Suniti Chugh, Dr. Shaji Kumar, Dr. Subhash Kaushik, Sh B.K. Singh, Dr. Sunil Ramteke, Dr. Manas Sarangi, Dr. Bharti Wadhwa, Dr. Divya Taneja & Dr. Karunakaramoorthy.

## VALEDICTORY SESSION

**Valedictory Session:** Dr Subhash Kaushik, Director General, CCRH presenting Vote of Thanks on WHD 2024

**Valedictory Session:** STSH (Short-Term Studentship in Homoeopathy) Award Distribution

**Valedictory Session:** MD Scholarship Award Distribution

**Valedictory Session:** Release of CCRH publication "COVID-19 Pandemic: Research by CCRH"

## POSTER PRESENTATIONS

Glimpse of a few participants of the Poster Presentations that were held at Yashobhoomi, Dwarka. (From left to right) Dr. Baidurya Bhattacharjee, Dr. Sonia Raizada, Dr. Karanpreet Nahar, Dr. Ashutosh Tripathi
