

by our Government, largely depend on the establishment of closer relations and upon the unanimous support of the followers of homeopathy of our country.

Two addresses on Homoeopathy.

GIVEN BY SIR JOHN WEIR, K. C. V. O., M. D. OF
LONDON, ENGLAND.

By "Request" of the Allopaths.

On July-26th-1932 Sir John Weir, K. C. V. O. our Homoeopathic Leader of Great Britain, gave "BY REQUEST" an address on Homoeopathy, at the "CENTENARY CONGRESS" of Allopathy before the "ROYAL SOCIETY OF MEDICINE", and such was the enthusiasm created by this address, that he was asked to give another address on the subject to the "BRITISH MEDICAL SOCIETY" (also Allopathic) on July-29th-1932 (three days later) when he received the same acclaim & thanks.

Thus it seems that Allopathy is awakening to the value of Homoeopathy.

This was reported in full in the September issue of "Homoeopathy" published by the British Homoeopathic Association of 43, Russell Square, London, W. C. I.
